

KABARAK UNIVERSITY

UNIVERSITY EXAMINATIONS

MAIN CAMPUS

SECOND SEMESTER 2020/2021

ACADEMIC YEAR

**EXAMINATION FOR THE DEGREE IN HUMAN
NUTRITION AND DIETETICS**

BHND 302: RESEARCH METHODOLOGY

STREAM: Y3S1

TIME: 9:00-11:00 PM

EXAMINATION SESSION: JAN.-APRIL

DATE: 10/05/2021

INSTRUCTIONS TO CANDIDATES:

1. Answer all the questions in section A, B and C in the answer book provided
2. Do not write on the question paper

SECTION A: MULTIPLE CHOICE QUESTIONS _____ **(10 MARKS)**

Choose the correct answer in multiple choice questions 1 - 10. Each question attracts 1 mark.

1. The best sampling method for sampling a population finite size
 - A. Systematic
 - B. Random sampling
 - C. Snowballing
 - D. purposive
2. Which of the following statements is **NOT** true about random sampling
 - A. Is reasonably accurate
 - B. Is free from personal bias
 - C. An economical method of sampling
 - D. Can be applied for all types of data collection
3. Which of the following can be the source of primary data in research
 - A. Experiments only
 - B. Survey
 - C. Survey and experiment
 - D. Survey and reference
4. The following are features of a good research student except

- A. Should be replicable
 - B. Should use facial expressions when collecting data
 - C. Should be systematic and objective
 - D. Should be ethical
5. A perception or concept that is capable of measurement is called _____.
- A. Variable.
 - B. Hypothesis.
 - C. Scale.
 - D. Error
6. Which of the following is an example of a concept?
- A. Height in meters.
 - B. Weight in kg.
 - C. BMI.
 - D. Nutritional status
7. The study population is _____.
- A. The way elements are selected for the sample.
 - B. Findings based on the information obtained.
 - C. The group of interest for the study from which the sample is selected from.
 - D. The number of elements from which information is obtained
8. Random sampling is also called _____.
- A. Probability sampling
 - B. Availability sampling.
 - C. Probation sampling.
 - D. Prospect sampling.

9. Systematic sampling _____.
- A. Needs a list of all elements in the study population.
 - B. Uses the researcher's judgment as to the ability of the respondents to contribute to the research.
 - C. Is based on convenience in accessing the sample population.
 - D. Is also called stratified sampling
10. In the process of conducting research 'Formulation of Hypothesis' is followed by
- A. Statement of Objectives
 - B. Analysis of Data
 - C. Selection of Research Tools
 - D. Collection of Data

SECTION B: SHORT ANSWER QUESTIONS (20
MARKS)

11. Differentiate Between the following terms
(4 Marks)
- i. Null and Alternative hypothesis
 - ii. Type I and Type II error
12. Examine the following quantitative research question: "Do pregnant women who participate in taking IFAS supplements have more blood volume as demonstrated on the Hemoglobin test than those who do not receive these IFAS supplement?"
- i. What is the independent variable? (1
Mark)

ii. What is the dependent variable? (1
Mark)

iii. What is the confounding variable? (1
Mark)

13. Explain **THREE(3)** questions you should ask to determine the quality of Internet academic materials/information in research writing (3Marks)

14. Brian a nutrition graduate from Kabarak University, successfully secured a nutrition research job with one of the local NGOS. The NGO is currently running a project dubbed “Risk factors for vitamin A deficiencies among children under-five in Baringo County”

i. Identify the key words in this title. (1Mark)

ii. State and justify **TWO (2)** objectives Brian will carry out to achieve the goal of the project (4Marks)

iii. Identify the problem the research title aims to address (1 Mark)

iv. Use the following guideline to write down a problem statement that will best fit the project using the problem identified in the question above (4 Marks)

a) Ideal situation:

b) Current situation:

c) measures that have been put in place over time to solve the problem:

d) State the persistence of the problem:

e) State the effects of the problem :

f) State the reason for the research :

g) State the gap in knowledge:

h) Conclude your statement:

SECTION C: LONG ANSWER QUESTIONS **(30 MARKS)**

15. Write short notes on **FIVE (5)** essential elements required in a Method Section for an intervention research study.

(10 Marks)

16. Discuss factors to consider in construction a questionnaire in a survey research, and procedures for obtaining a high response rate.

(10 Marks)

17. Literature review is an important component of a research proposal, Elaborate **FIVE (5)** importance of literature review.

(10 Marks)
